

REDACTED – FOR PUBLIC INSPECTION

required for turning up the circuit or taking it down for maintenance. These are in addition to the costs of managing multiple vendors. Although these types of vendor management issues have been manageable for NuVox when using vendors at the OC-n or multiple DS-3 level for interLATA transport, they are significantly magnified when used for hundreds or even thousands of discrete DS1 segments.

13. In order to remain in business, NuVox must be able to absorb the additional costs of utilizing a third-party provider, and a third-party provider must be willing to transport individual DS1 circuits based on the revenue that can be generated from the single small business customer being served over that facility.

14. This concludes my declaration.

DECLARATION OF CHRISTOPHER BENYO ON BEHALF OF NUVOX, INC.

1. I am currently Executive Vice President of Marketing and Sales of NuVox, Inc. (“NuVox”), which provides services through several operating subsidiaries. I have been employed by NuVox since 2001 as a senior sales and marketing executive. In that capacity, I have had continuous and close interaction with both NuVox’s current customers and potential new customers and am familiar – both personally and through the supervision of my subordinates – with the needs of such customers and the existence of alternative providers available to those customers.

2. I am submitting this declaration to explain that NuVox offers services to meet the needs of small and medium-sized businesses that are not generally offered by cable companies in its markets.

3. I can confirm that NuVox does not view cable companies in its markets as significant competitive alternatives for the types of services that NuVox and other facilities-based Competitive Local Exchange Carriers (“CLECs”) offer to small and medium-sized businesses. My constant interaction in the marketplace has given me a thorough

REDACTED – FOR PUBLIC INSPECTION

understanding of the source and extent of competition. In NuVox's markets, NuVox's existing and potential customers rarely identify a cable provider as a source of competition for the types of services offered by NuVox. In those rare instances where a cable provider is identified by a customer as a competitive alternative, that customer is typically a business that requires six or fewer channels and typically only three or four voice lines. I can attest that NuVox views its competitors in its markets to be the incumbent telephone company and other facilities-based CLECs.

4. This concludes my declaration.

Re: *Ex Parte Presentation*, CC Docket Nos. 01-338 and 96-98

Dear Ms. Dortch:

NewSouth Communications ("NewSouth"), through its counsel, hereby submits this notice of two *ex parte* meetings held today, January 14, 2003. At the first meeting, Jake E. Jennings, Vice President, Regulatory Affairs, NewSouth, and the undersigned, met with William Maher, Richard Lerner, Thomas Navin, Scott Bergmann, and Jeffrey Carlisle, of the Wireless Bureau. At the second meeting, Jake E. Jennings, Vice President, Regulatory Affairs, NewSouth, and the undersigned, met with Jordan Goldstein, Senior Legal Advisor to Commissioner Michael J. Copps.

The purpose of these meetings was to discuss NewSouth's concerns with adopting a pricing flexibility standard for determining impairment and with adopting usage restrictions, consistent with the attached presentation and comments previously filed.

MINTZ, LEVIN, COHN, FERRIS, GLOVSKY AND POPEO, P.C.

Marlene H. Dortch, Secretary

January 14, 2003

Triennial Review
Ex Parte Presentation

A Pricing Flexibility Trigger Masks the Significant Impairment that Carriers Like NewSouth Face Without Access to Unbundled Transport and EELs.

- BOCs typically obtain pricing flexibility under the revenue-based portion of the test. As a result, BOCs may obtain pricing flexibility relief for MSAs in which the vast majority of wire centers have no competitive collocated carriers at all.
- In the BellSouth territory, where NewSouth operates, BellSouth has sought and obtained pricing flexibility based on extremely limited showings of competitive entry.

Table 1
Extent of Competitive Entry in BellSouth MSAs

MSA	Total BellSouth WCs	WCs w/ Collocators	Collocators With Non-BellSouth Entrance Facilities in the MSA	Number of B.S. WCs w/4 or more Collocators ^{1/}
Evansville	4	1	1	0
Lexington	7	1	1	0
Kentucky Outside MSAs	130	3	3	0
Owensboro	9	1	1	0
Clarksville	12	2	2	0
N. Carolina Outside MSAs	57	5	8	1

^{1/} NewSouth concurs in the view that dedicated transport should not be unbundled in any wire center that does not have at least four alternative carriers capable of providing service from that wire center to the required destination). *See, e.g.,* Allegiance Reply Comments at 18-24 (explaining that the presence of at least four non-ILEC providers substantially lessens the threat of anticompetitive conduct); WorldCom Reply Comments at 126-27 (explaining the need to have at least four alternative carriers providing transport from a wire center before eliminating unbundled transport).

Even in Major Urban MSAs, Competitive Entry by Carriers with their Own Transport Is Concentrated.

Table 1A
Extent of Competitive Entry in Major Urban BellSouth MSAs

MSA	Total BellSouth WCs	WCs w/ Collocators	Collocators With Non-BellSouth Entrance Facilities in the MSA	Number of B.S. WCs w/4 or more Collocators
Atlanta, GA	58	16	69	9
Charlotte, NC	22	12	46	5
Greensboro, NC	17	7	20	3
Nashville, TN	41	16	33	1
New Orleans, LA	28	6	14	1
Orlando, FL	10	7	39	6

Competitive Carriers Serve Customers Subtending Many Wire Centers, Not Just Those Generating the Most Special Access Revenue

- The BOCs contend that the lack of collocators in the majority of wire centers is not important because CLECs concentrate in the wire centers with the most special access revenues.
- As demonstrated in the following tables, this is simply not the case, at least not for NewSouth. NewSouth serves customers subtending a large number of wire centers in an MSA.
- The vast majority of these wire centers have no alternative transport providers, based on the evidence submitted in BellSouth's pricing flexibility petitions.
